

Wireless Access & Personal Device Usage Agreement

Purpose:

The purpose of this Agreement is to establish an understanding with users of their own personal technology devices (laptops, tablets, smart phones, iPods, eReaders, etc.) that Edison Local School District has a right to protect its network and technical resources.

Edison Local School District provides its wireless network in support of the educational mission of the District. Using Edison's wireless network is a privilege. As such, it is the responsibility of each patron to use these services appropriately and in compliance with all School, County, State and Federal regulations.

These policies are in addition to the Edison Local School District's Acceptable Use Policy, and are not all-inclusive, and may be modified at any time.

I agree with the following statements pertaining to my personal technology device usage on Edison's wireless network:

- I agree that Edison's wireless network is a shared resource. Thus, using excessive bandwidth for extended periods of time and inhibiting the use of the network by others may result in the termination of my network privileges.
- I agree that the digital reproduction and distribution of copyrighted materials is against federal law. Anyone found distributing (sharing) such material, including copyrighted music, digitized video from copyrighted motion pictures, copyrighted software, etc. is subject to termination of their network privileges.
- I agree that attempts to circumvent or defeat any mechanism put in place by Edison Local School District to manage the network or filter Internet access will be subject to immediate termination of my network privileges.
- I agree that Edison's wireless network may not be used for any commercial purposes or used to provide Internet or Edison's wireless network access to anyone outside of the school community for any purpose.
- I agree that forgery or other misrepresentation of my identity via email or any other form of communication is a violation of District Policy. This includes forging of IP addresses or Ethernet adapter addresses to conceal your computer's identity.
- I agree that any unauthorized attempt to access another computer (on or off campus) is prohibited. Attempts to access other computers will result in the immediate disconnection of the suspected network connection until the matter has been resolved.
- I agree to renew my personal technology device registration every year.
- I agree that if I leave the District, I will lose all network privileges on Edison's wireless network.
- I agree to have Anti-Virus software installed, running, and up to date at all times, inside and outside of school. This can be a paid application or one of the free packages available. (Contact the Edison Technology department if you have questions.)
- I agree to keep the computer's operating system fully patched with critical security updates.
- I agree that if there is reasonable suspicion of a violation of the school's Code of Conduct Policy, the principal/assistant principal may examine my personal device.
- I agree to set my computer name to match my network login and will not change the computer name while utilizing Edison's wireless network resources. (i.e. 14jdoe)
- I agree that I will not attempt to connect my personal technology device to a wired network drop at any time.
- I agree to fully charge my personal technology device prior to coming to school. If a personal device needs charged during the school day it is under the discretion of the classroom instructor to permit charging.
- I agree that Edison Local School District is not responsible for any support of my personal technology device or any possible damage the connection to Edison's wireless network may cause. Edison Local School District assumes NO responsibility for costs associated with loss or damage to my personal technology device and its associated peripheral equipment.
- I agree that I am only to use Edison's wireless network managed wireless access points to connect to the internet from within school grounds. I understand that connection to third party access points is not permitted. Edison's wireless network services and wiring may not be modified or extended beyond the area of their intended use.
